CUSTOM CYCLING

RIDE LIKE A PRO

Thanks to our extensive experience and expertise in the World Tour, coupled with the trust and mutual respect we've built with our professional teams and athletes, we've crafted a fully customizable collection for your team. This collection is designed to make you and your teammates feel like true professionals within the Peloton.

Simply scroll through our Custom Catalog to find all the products bearing the "PRO" icon to discover the very same items worn by your favorite athletes.

YOUR CUSTOM ORDER SPEEDS AHEAD

Faster delivery times and efficient service!

Our dedicated experts and suppliers consistently work towards providing the best service and benefits to our valued customers.

Today, we're thrilled to offer custom kits with a delivery time of approximately 6 weeks. These kits are shipped directly from Sportful HQ in Fonzaso, Italy, the birthplace of legendary champion jerseys, right to your doorstep.

Our top priority is ensuring the satisfaction and happiness of our consumers. There's nothing quite like the feeling of proudly wearing your team's colors, and we're here to make that happen.

PRO BASELAYER TEE

OVERVIEW
This new baselayer tee has a renewed fabric, with vertical stripes that help the fit of the garment. The rib has a slight relief to allow separation from the skin and keep it dry. This is the ideal product for those looking for a summer first layer capable of providing comfort, freshness and ventilation even during the hottest rides, together with a snug fit.

- FEATURES**
- Vertical ribs raise fabric away from skin
 - Designed to be compatible with new Sportful jersey collar and bibshort
 - Innovative design

FIANDRE MEDIUM

OVERVIEW

The Fiandre Jacket has been redesigned this year with a new shape and fabrics. The updated GORE-TEX INFINIUM™ DWR fabric makes the Fiandre Jacket a truly high-performance garment. The fit has also been improved to make this jacket the perfect choice for the most intense training. Use of materials treated with nano technologies increases stretch, maximising comfort.

FEATURES

- Gore-Tex® Infinium® 218 g fabric
- Brushed interior for greater warmth and comfort
- Flap over zips for wind protection
- Rear fabric with WR treatment

SEATPADS

BODYFIT PRO SEATPAD

For many this would be the perfect pad. It was true for Sportful as this pad was used for our best bibshorts when Alberto Contador was performing Il Pistolero in his best Tour de France years. It was developed in a highly-competitive scenario and still today, our Bodyfit Pro Seatpad is able to assist you in your rides thanks to the anatomical design, to the micro-perforations of the foam padding in variable thickness, to the absence of stitches.

TC PRO SEATPAD

Our racing pad more than any other. All the cosy features of the Total Comfort pad, adjusted for a performance situation. Urethane foam padding goes up to 15 mm thickness, with extra layers on the rest of the surface. The pad is perforated to guarantee a higher ventilation, quicker drying and more freedom of movement. A performance-oriented pad, perfect for long, intense rides.

DMS SEATPAD

A brand new pad specifically designed for dirty roads., with different densities on the pad to make the real difference. The open-cell foam padding is fast in the drying process. The pad is lighter and also shorter in length, as it is developed for a more erect bike drive, just like on dirt and gravel roads.

BODYFIT TT SEATPAD

The Bodyfit TT Seatpad is specifically designed and developed for time trial races. The padding is minimal and designed to facilitate an aerodynamic position on the bike.

KID PRO EVO SEATPAD

A junior version of Comfort Pro insert. 2 sizes that match with growing bodies. Unisex construction moves well with the body and mocrifiber fabric has soft smooth finish and antibacterial surface treatment. Open cell foam with variable thickness for maximum comfort. Lower density appropriate for the light bodyweight of junior riders.

TC PRO W SEATPAD

Our racing pad more than any other, specifically designed for women. All the cosy features of the Total Comfort pad, adjusted for a performance situation. Urethane foam padding goes up to 15 mm thickness, with extra layers on the rest of the surface. The pad is perforated to guarantee a higher ventilation, quicker drying and more freedom of movement. A performance-oriented pad, perfect for long, intense rides.

INFINITY W SEATPAD

An update to most comfortable and padded women's seat pad ever. The bioceramic top cloth is softer than ever, while 3 layers of foam provide progressive cushioning, meaning you never bottom out. A very soft upper layer means immediate comfort on your skin, a medium-density middle layer of open-cell urethane foam provides just the right cushioning with breathability, and a high-density outer layer cushions the biggest shocks.

TRI RACE SEATPAD

Designed for perfect performance throughout the race the Tri Race pad is specifically engineered for Triathlon. With padding placed in the correct Tri saddle position, low profile foam that doesn't interfere on the run and a quick drying perforated construction to make the transition more comfortable. Triathlon optimised ergonomics. Perforated foam for quick drying. Low profile design for comfort on the run & swim. Soft microfiber surface. 5mm foam, 3mm foam.

TRI RACE W SEATPAD

Constructed with women's specific ergonomics with all the technical features of the Tri Race pad, ideal for racing, on and off the bike. Women's specific construction. Triathlon optimised ergonomics. Perforated foam for quick drying Low profile design for comfort on the run & swim. Soft microfiber surface. 5mm foam . 3mm foam.
